

Brief Overview of the Module – NZ Information Sources

This module has been developed as part of an ECDF (eLearning Collaborative Development Fund) project called: *Information Literacy¹ e-Learning Modules – Reusable and Portable across a College of Education, a Polytechnic and a University Project.* Staff from three institutions – University of Otago, Dunedin College of Education and Otago Polytechnic – are working together on the project.

As each module is developed, usability testing on the “raw prototype” is carried out with staff and students at the three institutions. The modules will also be evaluated as part of a research project when they are piloted at the three institutions. These processes will enable a relatively polished learning resource to be produced prior to its release to the tertiary sector. Additionally, we welcome feedback from potential users of the learning resource in a more informal way. Please review the module and complete the feedback sheet.

Email feedback sheet to: Bronwyn Hegarty: bronwynh@tekotago.ac.nz – Otago Polytechnic

Enquiries to: Jenny McDonald: jenny.mcdonald@stonebow.otago.ac.nz - University of Otago

Dawn Coburn: – Dunedin College of Education - Dawn.Coburn@dce.ac.nz

Bronwyn Hegarty: bronwynh@tekotago.ac.nz – Otago Polytechnic

¹ Information literacy is the lifelong ability to recognise the need for, to locate, evaluate and effectively use information (ALA, 1989).

Feedback Sheet

Are you a staff member or a student? _____

Please rate the module using the 1 – 5 scale

	<div style="text-align: center;"> 1 2 3 4 5  poor fair good excellent Not applicable </div> <p>Please add comments below:</p>
1. quality of screen display	
2. ease of navigation	
3. clarity of instructions when using the module	
4. relevance of content	
5. depth and conciseness of content	
6. organization and clarity of terms, content and features	
7. variety and type of learning activities	
8. opportunities for self-assessment	
9. quality and usefulness of feedback	
10. potential for enhancing knowledge and understanding	
11. quality and relevance of graphics and interactive material (activities)	
12. effectiveness in stimulating interest in the topic	
13. opportunities to follow own interests	
14. overall rating for ease and convenience of use	
15. overall level of effectiveness for learning	

Comments: _____

Please answer the following questions:

1. What features of the module do you like?

2. What features of the module do you NOT like?

3. Suggestions for improvement:

Thank you for taking the time to review the module. Please add your name, institution and contact details if you wish to have further involvement in the project.
